

Africa - Europe Artificial Intelligence Policy Summer School 2024

Shaping the Future of AI & Data Regulation

17TH - 31ST MAY 2024

The Lawyers Hub & The Africa Digital Policy Institute are delighted to announce the inaugural Europe-Africa Artificial Intelligence Policy Summer School 2024, a two-week flagship program that will take place in-person in 5 European countries, **France, Belgium, Netherlands, Germany, and Switzerland from 17th to 31st May 2024**. This pioneering fellowship program aims to facilitate knowledge exchange between Africa and Europe and build a network around Artificial Intelligence (AI). The program focuses on supporting Digital Policy Research related to AI, fostering responsible innovation in the African AI ecosystem and championing entrepreneurship.

Who Should Attend?

The Program targets African stakeholders including entrepreneurs, C-level executives, members of Parliament, policymakers, county attorneys, law firm partners, ministers, speakers of county governments, Civil Society Organization's representatives and Bar Association presidents.

Topics to be covered

- **Artificial Intelligence Policy Frameworks:** Exploring best practices and emerging trends in AI governance from both continents.
- **Data Governance Frameworks and Cybersecurity:** Analysing data protection regulations and strategies for secure AI implementation.
- **AI as a Digital Public Infrastructure:** Understanding the potential of AI to advance public services and bridge the digital divide.
- **Digital Identity:** Examining the role of digital identification systems in enabling inclusive and secure access to AI-powered services.
- **AI Innovation and Entrepreneurship (Corporates & Businesses):** Empowering participants to nurture a thriving AI startup ecosystem in Africa.

Exclusive Opportunities:

- **High-Level Engagements:** Networking with leading experts at **UNESCO, OECD & AFD** in Paris.
- Participation in the prestigious **International Conferences** in Brussels and Berlin..
- **European Union Parliament:** Witness the heart of European policy making firsthand.
- **The German Parliament:** Gain insights into Germany's approach to AI governance.
- **AI for Good Summit:** Collaborate on building a future where AI benefits all at the AI for Good Summit in Geneva.

- **NEMO Science Museum:** Explore the intersection of science and technology at the NEMO Science Museum in Amsterdam.

Certification

Participants will be awarded an Artificial Intelligence Governance Professional (AIGP) certification.
